Cambourne Village College Summer School 2022

During the first week of the summer holiday 2022 Cambourne Village College held a week long summer school for the new upcoming Year 7 students. This week was aimed at students who are on the Pupil Premium list. Over all 30 students were invited to attend. Initially 10 confirmed attendance. After some phone calls the total rose to 20 students.

Throughout the week we were able to offer the students a variety of activities both on and off site. We also had two visitors that came in to deliver some sessions. Alongside this the students were able to take part in some regular lessons such as English, Maths and languages to give them a taste of what it might be like once they started at the College after the summer. (Please see attached timetable of the week).

The funding that was provided for the summer school was spent in the following way:

Costings

Activity	Cost	
Animal experience	£ 300	
Planetarium	£350	
Punting	£200	
Heffers	£150	
Food shop	£140	
Lunch out	£80	
Coach	£249.99	
Staffing	£3,875	
TOTAL	£4,344.99	

The feedback from both the students and the parents at the end of the week was incredibly positive.

Parents said they felt they're children were coming home happy and talkative about their experiences each day. They felt it also lowered anxieties about them coming up to the college in September as they now have some familiar faces and knew the building a bit better.

Students stated that they liked that they knew the school building and were looking forward to seeing the summer school staff in the September once they started at the school. Some of them also said that they had made new friends because of the summer school, and this made them feel better about starting at the school.

Staff felt that it was a good way for them to meet some of the new students. The staff who worked on the summer school were from across the school from various departments and provisions.

Summer school provided a great opportunity for both students and staff to engage in some enriching and fun activities and meet new people. Thank you to all involved.
